- 3 x** Rubber Feet (Mounted)

MAIN SPECIFICATIONS

Some good-to-know details

Speaker type: Passive 2-way.

Frequency range: 55Hz-22kHz

Sensitivity: 86dB@1m1W

Nominal impedance: 4 ohm

Dimensions WxHxD: 215 x 437 x 170 mm.

Weight: Approx. 2.6 kgs.

CONNECTING YOUR LOUDSPEAKERS

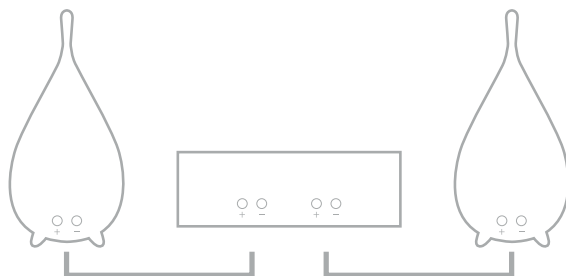

Connect The Drop to an amplifier

We recommend that you read the manual of your amplifier or av-receiver carefully before connecting your The Drop loudspeakers.

Please switch off all equipment when connecting The Drop.

The terminals accepts wire up to \varnothing 4mm. Make sure that the positive terminals on The Drop (RED) are connected to the positive output terminals on the amplifier and that the negative terminals on The Drop (BLACK) are connected to the negative output terminal on the amplifier.

You are now ready to enjoy the great sound of The Drop.

RUNNING-IN PERIOD

Making sure The Drop
sound as good as it can

We recommend a running-in period of your new The Drop loudspeakers of approximately 15-20 hours at normal listening level before you decide on the final positioning of the loudspeakers. During the running-in period, the drive units will settle in to perform as intended.

CARE AND CLEANING

Keeping The Drop neat
and tidy

We strongly advise against the use of any solvents or cleaners on the lacquered The Drop cabinets. The cabinet surface usually only requires dusting or cleaning with a damp soft cloth (only use cold clean water). Avoid touching the drive units, especially the tweeter, as damage may result.

ENVIRONMENTAL INFORMATION

Correct disposal of this product

This marking shown on the product or its literature, indicates that it should not be disposed with other household wastes at the end of its working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.

FOR YOUR SAFETY

For your safety and protection of The Drop

- Do not use The Drop in wet, misty or dusty conditions. This might damage The Drop and void warranty.
- The Drop should not be used in heavy direct sunlight. Damages from sunlight exposure might void your warranty.
- To avoid damaging The Drop speaker always make sure to place The Drop on a flat and stable surface.
- Never try to open or repair The Drop. Always consult authorized service personal in case of defects that might require repair.
- Make sure that The Drop has adequate free space around to ensure proper ventilation.

WARRANTY

The Drop is of course
covered by warranty

Your Podspeaker is covered by warranty according to the local rules of the country/region, in where they were bought. Please always consult your local dealer for any questions related to warranty. As warranty documentation (proof of purchase), please always store/keep the original receipt in a safe place.

THANK YOU!

Once again -

Thank you for purchasing The Drop speaker.

Best Regards from,
Your Podspeakers Team.
